4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

A seasonally themed, electronic newsletter will be developed and distributed to interested individuals. The newsletter will maintain a focus on primary pollutants of concern, stormwater processes, and will offer advice on reducing negative water quality impacts through simple actions. The newsletter will encourage participation in locally sponsored events that support stormwater management and protection efforts.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Gardens and Gutters was electronically distributed on 5/1/17, 6/21/17, 8/16/17, and 9/28/17. A distribution database averaging 181 individuals is continually updated to reflect new subscribers and current contacts. The newsletter is promoted at public events, on-line, in other hard copy materials, and through direct promotion with existing organizations and groups with a complimentary focus. Feedback indicates that the topics, graphics tone is appropriate for the target audience. "Gardens and Gutters" frequently gives rise to requests for additional information. The reach of this newsletter is expanded by watershed groups outside of the SUA that distribute the publication to their members.

C. How many times was this observation measured or evaluated in this reporting period?

A full-day workshop was held on 11/16/17 at the NYS Fairgrounds. The workshop focused on winter road maintenance including material issues (cost vs. benefits, phosphorus issues and certified materials, safety and equipment calibration, environmental impacts of deicing materials). Presenters included NYS DOT Region 3 staff and Cornell Local Roads. The two-part workshop included classroom instruction and a train the trainer session where DOT staff demonstrated proper materials spreading calibration on actual MS4 equipment. Equipment vendors staffed displays and on-site staff assistance was provided by Onondaga County SWCD. Attendance: 65. Positive feedback from attendees was received along with requests to conduct this on an annual or bi-annual basis. A second workshop was held on 11/16/17 for MS4 officials. 4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Stormwater Public Survey Response Actions: CNY RPDB will compile/develop new and existing materials to address public education needs identified through the 2015 public survey, and identify appropriate outlets to expand outreach efforts. The survey indicated that the educational program can be strengthened by intensifying pet waste management messages, identifying new electronic outlets incorporating social media; and continuing to emphasize stormwater pathways and the economic benefits of not using phosphorus fertilizer on residential lawns.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

Social media (Twitter and Facebook) was used to promote short stormwater management messages largely focused on pet waste management, zero phosphorus fertilizer and nutrient impacts on surface water quality. Social media response was not strong, but revisions to the stormwater website resulted in an increased number of "hits" over the previous permit year. A relationship with the NYS Restaurant Association was established and new outreach materials were posted on the Association's statewide website. Educational materials for children in primary and elementary grades were distributed at events and remained popular with follow up requests for additional copies. Pet waste management brochures and newsletter articles were developed and widely distributed through all mediums; phosphorus and pathogen issues were the primary topics for 2017. Post Standard insert and public newsletters maintained a tight focus on core issues.

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

Social media efforts will be pursued more vigorously between April - October; CNY RPDB will continue to develop new messages and delivery formats that are more accessible to younger audiences. Messages targeted toward informational needs identified in the survey results will continue. New audiences and partnership outlets will continue to be pursued. Effectiveness will be assessed by a follow up survey in 2020.

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.
