The Village of North Syracuse Regular Board Meeting began at 4:29 P.M. with Mayor Gary Butterfield asking everyone to join him in the Pledge of Allegiance.

Roll Call: Mayor Gary Butterfield, Trustee LouAnn St. Germain, and Trustee Chris Strong.

Personnel Present: Village Clerk/Treasurer Dianne Kufel, CEO Brian Johnstone, DPW Superintendent Ed Ware, Parks Director Teresa Roth, Police Chief William Becker, Village Attorney Scott Chatfield, and Village Engineer Amy Franco.

Personnel Absent: Dep. Mayor Browning – Sick, Trustee Fred Wilmer – No Call/No Show, and Fire Chief Robert Liberatore – Excused

Public Hearing #1 @ 4:29 PM: This Public Hearing is being held by the Board of Trustees of the Village of North Syracuse to consider the adoption of Local Law #6, a local law modifying the current code as it pertains to Chapter 230-15 Parking Restrictions pertaining to Commercial Vehicles on Residential Streets and will hear all persons in support of such matters or objection thereto. He stated we discussed this at the past two previous Board meetings and we have some language prohibiting Commercial Vehicles from parking on residential streets and this will amend it so they are not parking on residential streets unless they are doing a service; this is prohibiting residential streets from overnight 24 hour a day parking for commercial vehicles simply because the owner of the company happens to live nearby. He turned it over to CEO Johnstone. CEO Johnstone stated the new portion of this is just to have pickup trucks with trailers, landscape trailers, etc. not parking on the road during the summer time hours. He continued it is just become a nuisance on most of our Village roads and it is an eye sore too. The Mayor asked if anyone would like to speak for or against come to the microphone and identify yourself. Jacklyn Keyes of 311 Chestnut St. stated she strongly opposes the idea as she lives in the Village and pays taxes. She continued if she chooses to have a vehicle of such size and trailer and she wants to park it on the road for a short term; she should be allowed to do that, without being restricted in her residential area. She continued she feels she should not be restricted on what she is allowed to do within her residential area. She spoke of others in her area feeling the same way, but could not come, because of it being a 4:30 PM meeting. The Mayor asked if anyone else would like to speak for or against. He asked a final time if anyone else would like to speak in favor or against and with no response he closed the Public Hearing.

RESOLUTION # 182-19

Trustee St. Germain made a motion to approve the minutes from on September 12th, 2019 Board Meeting.
Meeting. The motion was seconded by Trustee Strong. The motion was approved with Trustee St. Germain, and Trustee Strong, all voting in favor of the same.

**RESOLUTION # 183-19**

**GENERAL FUND ABSTRACT APPROVAL**

Trustee Strong made a motion to approve the General Fund Abstract #09 in the amount of $87,697.20 covering Voucher #434 to Voucher #488. The motion was seconded by Trustee St. Germain. The motion was approved with Trustee St. Germain, and Trustee Strong, all voting in favor of the same.

**RESOLUTION # 184-19**

**BUDGET TRANSFER(S)**

The Mayor stated the transfer of monies from the Budgeted Patching Account to Village Sidewalk Work. Trustee St. Germain made a motion to approve the budget transfers from A5110.411 DPW Patching to increase A5110.26 Sidewalks in the amount of $2,185. The motion was seconded by Trustee Strong. The motion was approved with Trustee St. Germain, and Trustee Strong, all voting in favor of the same.

**OLD BUSINESS:**

**DISCUSSION TREMPCO/VILLAGE HALL GARAGE AREA VS. THERMAL CAMERA**

The Mayor stated Trustee Wilmer is not here, so we will table this item.

**ZONING BOARD ALTERNATE-REPLACEMENT FOR G. MITTON**

The Mayor stated we do not have a response yet, so we will table that as well.

**DISCUSS MEDICARE SUPPLEMENT: COST SHARING**

The Mayor stated Medicare Supplement we will be tabled as well.

**INFORMATIVE: MURAL/VILLAGE HALL AND DPW**

The Mayor stated the next item on the agenda is just for information. He continued we are looking to put a mural on the end of the our garage down by Village Hall and also something at DPW to identify
the DPW building. He stated it will give them something to hang their hat on, so we have a couple of interested artists, we are waiting for their proposals, for a couple of murals to brighten up the Village.

**FORMAL APPOINTMENT OF THE NEWLY APPOINTED NO. SYR. POLICE CHIEF WILLIAM BECKER**

The Mayor stated the next item on the agenda is the formal appointment of the newly appointed North Syracuse Police Chief William Becker. He continued we had our former police chief resign. He stated we welcome a promotion of our Part-time Ass't. to be our new police chief. He asked William Becker to come forward.

**Swearing in/Oath of Office for: Chief of Police William Becker**

Village Clerk-Treasurer Kufel performed the official Oath of Office to swear William Becker in as a Chief of Police.

**DISCUSS/ADOPT LOCAL LAW #6-PARKING RESTRICTIONS-COMMERCIAL VEHICLES ON RESIDENTIAL STREETS**

The Mayor stated the next item on the agenda is to discuss/adopt Local Law #6, because we are down Trustees, he thought it would be a good thing to table this. Atty. Chatfield stated it is his prerogative; we do need to do an environmental significance determination of adopting a Negative Declaration. He continued he wanted to add to CEO Johnstone did not mention, but there is an exception for such vehicles when they are actively servicing a property right in the vicinity. He stated it is the use of the streets for overnight and 24 hour a day parking for commercial vehicles simply because the owner of the company happens to live nearby or otherwise. He continued indeed or live on a different street and park their vehicles on other streets, because it is convenient and that is problematic; streets are not designed for that. He clarified that they can accommodate parking, but not large vehicles and that is the reason why CEO Johnstone proposed the changed amendment. The Mayor stated overnight parking for residential vehicles is approved. Atty. Chatfield added except when there is a season when that is prohibited. The Mayor continued they are not allowed to be when it is plow season, so he tabled this item.

**DISCUSS $50,000 GRANT SUBMITTAL FOR THE POLICE DEPT.-ASSEMBLYMAN STRIPE-CAMERAS**

The Mayor stated this item is to discuss a $50,000 grant submittal from Assemblyman Stirpe for cameras. He continued this is just informational at this point, it started out as a $50,000 and maybe that is turning into $100,000, so he turned it over to Police Chief Becker. Police Chief Becker stated
that there appears to be more assets available than originally asked for, so we are going to see if we can increase the number of systems that we already purchased. He continued the ability to expand the coverage, this a total, not a co-pay grant, so there is no funding required from the Village for this at all; it is totally funded by the government. He stated with the $100,000 we would be able to do approximately 10 full sites, both of the corridors that were discussed prior, and basically some of the parks and do a survey to find out where they are going to provide us the best coverage. Trustee Strong stated it is a great opportunity.

RESOLUTION # 185-19

DISCUSS/APPROVE STREET PAVING PRIORITY LISTING FOR CHIPS FUNDING

The Mayor stated the next item on the agenda is to discuss and approve the street paving priority listing for CHIPS funding. He continued the Board was given the listing provided by the DPW Sup’t and itemized the recommendation of the in need of repair being prioritized. Trustee Strong made a motion for discussion. The motion was seconded by Trustee St. Germain. The Mayor opened this for discussion. Trustee Strong clarified this is a different vendor from last year. DPW Sup’t stated this is one we have used multiple times in the past. Trustee Strong stated noted, did an excellent job and he knows there were some concerns last year between mud flaps inside some of the streets and some other concerns, so thank you for working on that. He went on as we discussed informally in a couple of emails as we looked at other projects, have we looked at how much we would lose or how many less streets we would be able to complete if we milled and paved. He continued he knows there is a lot of discussion on the benefits whether you are eliminating problems underneath or you are just kind of paving over it. He went on specifically he saw your list DPW Sup’t Ware; he thanked him for the time and effort thus far; his largest concern is Gertrude. He stated the other five he took an opportunity and go out and walk them looking for cracks and holes. However, Gertrude if we top coat over the top of that we are going to be above the sidewalks and above where there was at one point, curves, so that is his concern. He asked if we could approve five and leave Gertrude until we see what the milling portion would be and then actually mill and pave Gertrude potentially seek out other CHIPS funds or check with Village Clerk-Treasurer Kufel and see what we have available. DPW Sup’t Ware stated with the estimate for Gertrude, he specifically had them go down through Gertrude and explained to them that the sidewalk is there and they would have to mill that side. He went on the 100 block of Church St. has a lot of sidewalk that comes up to the road and that would all have to be milled, so that would take care of that issue on those. Trustee Strong commented O.K. DPW Sup’t Ware continued because of the height difference and the trip hazard, or any problem there with water building up. Trustee Strong asked about Palmer, some residents of Palmer had identified that stretch in addition to Belmore and some others with the pooling of water after it rained. He stated understanding 12 and 16 hours later you seem to eliminate pooling of water, but Palmer has already been identified as a problem area
or potential problem area; will now raising it an inch and a half to two inches create more of an issue or are we confident that it is going to be the basin will catch everything and eliminate that. DPW Sup’t Ware stated he believes that will be eliminated in the catch basin and the absorption into the soil in a short amount of time. He went on that rest of Palmer has been paved previously and that end has not been done in quite a while. The Mayor stated his recollection of Gertrude St. is that the sidewalk butts up to the pave; is that correct. DPW Sup’t Ware continued correct. The Mayor continued in his mind that is a design that should go away, we should not have a sidewalk right next to the paved; he would rather have that sidewalk torn out. He continued that is his particular, we have two or three streets that are like that and that was from the 50’s or 60’s or whatever, but it is not a good design, because you are putting the pedestrian at the edge of the road. He asked Mrs. Franco if she had any thoughts on that. Mrs. Franco stated she has not looked at it. The Mayor went on to say he means Allen Rd. has got a new sidewalk right next to the road, but there is a pronounced curb there. Mrs. Franco continued right, there is a height difference. Trustee St. Germain asked what mill mean is that when you grind it down. DPW Sup’t Ware stated it is grinding down 1 1/2 to 2 inches make smooth trenches. Trustee St. Germain clarified that they could take it down a little further then too, to make the distinguishing factor between the road and the sidewalk. DPW Sup’t Ware continued no, just to make it a smooth transition to eliminate a trip hazard. The Mayor stated eventually we will get to Church and Chestnut St. that design will be to mill and repave and that is what you see happening a lot with what has transpired over the years with limited CHIPS money that we get. He continued we can only do a small percentage of our streets every year and to mill and pave is more money than just top, so that is why sometimes the road seems to get built up a little higher. He stated he does not think that they get many major complaints and we are a Village that paves very little, because fortunately we are all sand and it drains away pretty quickly. The Mayor stated so again we are short; we can either table it or vote on it. He asked if her questions had been answered; they are going to mill those two areas that you are concerned about. Trustee Strong stated he knows Trustee Wilmer did have some questions regarding this project; if this is tabled and he is certainly ready to move to table, with this project if it waits until the Oct. 12th, would that put you behind. He continued he knows they stay opening until around Thanksgiving, but as far as your plan and everything else you have going on in the Village, we do not want to hold you back. DPW Sup’t Ware stated he received the requisition with three signatures on it and he reached out to Barrett and let them know to get us on the schedule; he stated he could call them and tell them to wait until the 12th, if it pleases the Board. The Mayor stated we do not want to be locked out either, everybody is trying to get paved and if you push them back a couple of weeks and all of the sudden we are at the tail end and the weather turns south on us, he does not know what that would mean. Trustee St. Germain stated she is ready to vote on it, she has no problem with it. The Mayor stated it is a recommendation of the DPW Sup’t. The motion was denied with Trustee St. Germain, and Mayor Butterfield, all voting in favor of the same. Trustee Strong Abstained.
Strong stated he would like to speak on that, he truly feels, but he knows Trustee Wilmer specifically had some questions and want to have him have that opportunity.

**RESOLUTION # 186-19**

**DISCUSS/AUTHORIZE CNY STORMWATER COALITION AGREEMENT FOR 2020**

The Mayor stated the Board received the standard agreement; although unfortunately the cost sharing is not equal, because we pay the same as the City of Syracuse and Onondaga County and the smaller Villages, but that the way it was determined quite a while ago that everybody shares equally. He continued it will cost the Village $3,600 for the year; this is a coalition of 26 municipalities. Trustee Strong made a motion to authorize the Mayor to sign the CNY Stormwater Coalition Agreement for 2020 in the amount of $3,600. The motion was seconded by Trustee St. Germain. The motion was approved with Trustee St. Germain, and Trustee Strong, all voting in favor of the same.

**INTERSTATE 81-REVIEW/ECONOMIC IMPACT**

The Mayor stated the next item on the agenda; we did receive a report on Interstate 81 that was given a month or so ago. He continued it was interesting, talking about the impact of the Community Grid vs. rebuilding 81 where it stands. He stated as you know, he believes the state favors the Community Grid, many people favor a Community Grid, but the towns and villages that will be impacted are not in favor of the Community Grid. He spoke of the report being eye opening, talking about the impact by rebuilding 81 and the Board has received it. He stated it is good information.

**CITIZENS' VOICE:** The Mayor invited anyone that wished to share concerns or thoughts to address the Board.

Sue Hammond of Elaine Ave asked the Mayor when we are going to have the SU Professor come. The Mayor stated the last two times he tried, he was going out of town, so he has not followed up. He continued there was an article at Syracuse.com or somewhere about Europe expressing concerns about the dangers of 5G. He went on we do not have a choice, because we can protest, but the federal government has already determined that it is going to happen. Ms. Hammond continued inquiring about the size, frequency, etc. The Mayor continued again he volunteered to come here, the last two times we have talked, he was going out of the country; apparently he is pretty well known, but he will reach out to him again. She asked when you do your minutes and you approve your minutes is there something place where we can get a copy of minutes. Village Clerk-Treasurer Kufel stated you certainly can if you want to pick up a copy and come into Village Hall to get it, but there are almost 2 years of...
the minutes right on the Website. Ms. Hammond and Jacklyn Keyes of 311 Chestnut St. inquired about the posting of Public Hearings. The conversation continued regarding the postings in the local paper, the website, the bulletin board at Village Hall. Atty. Chatfield explained it is the citizens responsibility to subscribe for instance to the local newspaper, that is the cost of being an involved citizen in our representative democracy, all of our notices have to appear in the office newspapers, it is a requirement of law, so you have just got reach out. He stated now you do not do internet and neither does he, you really need to subscribe to the Eagle and to cover yourself, and you probably should at least subscribe to the electronic version of the Syracuse paper or some other means, that way you will know exactly what notices are there or stop and look at Village Hall and look in the window. The Mayor asked if anyone else would like to speak and closed Citizen’s Voice.

ATTORNEY REPORT: No Report.

ENGINEER REPORT: She stated Community Development gave them a notice that they are looking to award the Grove St. Sidewalk Project that we had applied for this March. She continued so they are going through their environmental review right now.

DEPARTMENT HEAD REPORTS:

Police Department: He stated the following:

- He is pleased to report the Bureau of Justice Assistance has advised our agency we will be receiving an award under Fiscal Year 2019 Bulletproof Vest Partnership solicitation. The Office of Justice Programs is currently completing my request to associate my information to the Police Dept. account, which should be completed in a few days; at that time he will be able to view the full award amount.
- On September 21st, NSPD charged David J. Pastorell, 58, of Fulton, with 3rd degree robbery and 4th degree criminal mischief. Pastorell entered the A-Plus locate on E. Taft Rd. at 11:28 a.m. at which time he committed robbery, taking approx. $125 in cash from the stores cash register. Pastorell was identified as a suspect in that robbery, was located and arrested at approx. at 12:45 p.m. This is the 2nd time Pastorell has been charged by NSPD with 3rd degree robbery. He was previously arrested less than a year ago, for a similar incident at the North Syracuse 7-11 in November of 2018.
- Officer Lily Hohmann is near completion of her Phase II Police Academy training requirements. She starts Field Training Officer phase next week. Officer Hohmann will be riding with a Senior Field Training Officer to both develop and evaluate her performance for a total of 160 hours of supervised training. He is pleased to stated, he has received numerous comments from her Academy instructors pertaining to the excellence of her efforts and performance.
So far in September: 807 Total Calls for service, 437 Property Checks, 14 Domestics, 12 Motor Vehicle Accidents, 114 Traffic Stops, 78 Traffic tickets, 14 Arrests

**Fire Department:** Absent

**Public Works Department:** He stated the following:
- We were on Church St. today, doing major repairs of potholes; he had guys directing traffic with communications
- They are tracking down some storm drain issues Pleasant to Melrose
- Trustee St. Germain stated she noticed a guy took his fence down and spoke of the flooding back there; DPW Sup’t stated they are working on that
- They are getting ready for winter season

**Parks and Recreation Department:** She stated the following:
- Promoting the Taste of North Syracuse Event is being held October 5th thru October 13th
  - 37 businesses are participating in the Taste/Shop/Experience Event
  - The businesses will offer some kind of special or discount that week, so if you see the flyer in the window that means they are a participant, but do need to reference the event to get the discount
  - This morning we held the Annual Flu Shot Clinic with a pretty good turn out
  - The senior group had a very successful bus trip this week
- She is mailing out tomorrow the disbursement agreement $125,000 SAM Grant for the Heritage Pk.
  - Doing a Dog Pk.
  - Redoing parking lot there and the project will start shortly
  - Most work will be done this fall, and spring of next year

**Codes Department:** He stated the following:
- Received plans for the build out for Corso’s Cookies in Maines Plaza to start shortly
- Today the property next to NAVAC; they took the house down, he did not get there before he came here, but it should be pretty much all gone, but may have some to get tomorrow
- NAVAC purchased property where house was taken down, in the future they plan to develop
- Remind property owners the week of October 7th is the last Bulk Trash pickup for the Village, after that no more Bulk Trash until March of next year

**Clerk-Treasurer:** She stated the following:
We welcome the 2 SU interns here
  o David has been working with the Codes Dept.
  o Noel has been helpful with the Taste of North Syracuse, Web posting, Graphics involved with that event

She thanked the Board for allowing her to go to the Saratoga Training, it was very interesting and she took a lot of different classes that are definitely advantageous to the Village on Group Health Insurance, Sexual Harassment, overview of the Financial Statements; she thinks she keeps the Board well in tune with what is happening financially.

She connected with a couple of groups that do some scanning, we keep documents, payroll, minutes and stuff on laser fiche and she hopes that we can do that internally, but she is still on that.

**DEPUTY MAYOR-TRUSTEES REPORT:**

**Trustee St. Germain:** She congratulated officially Chief Becker. She stated just an FYI: all vehicles will be off the streets overnight from November 15th to April 15th.

**Trustee Strong:** He stated the following:
- He stated the Annual Safety Day for the Fire Dept. is October 5th which will be tied in with the Taste of North Syracuse; there is not another meeting prior so we are trying to get interest over there.
- He thanked the citizens for coming to the Board meeting; we have heard a lot in the past few months of alternate means to get information out, but truly the 6:30 PM and 4:30 PM are the official meetings.
- He spoke of the 4:30 PM meeting being a bill processing abstract meeting and asked if we should be doing Public Hearing at a bill processing meeting. He stated we have to pay bills and keep things moving, but are we doing the citizens justice, we may want to NOT schedule Public Hearings at 4:30 PM meetings.
- He spoke of Lonergan Park has an Electronic Sign that is Village owned, so that is a consideration in addition to the Website that we can add that for folks driving up and down Chestnut for notification. The Mayor added the Fire Dept. has an electronic sign too which is a Village owned property.

**Trustee Wilmer:** No Report.

**Dep. Mayor Browning:** No Report.
MAYOR'S REPORT:

The Mayor stated North Syracuse Housing Authority which is affiliated with the Village. He read the proclamation of service in appreciation for several years of service of Phil Aylward, 18 years to be exact as the Executive Director of the Village of North Syracuse Housing Authority, overseeing housing programs for the very low income people in North Syracuse Community, annual distributing over a million dollars in rental assistance, guiding the Housing Authority through many Federal and New York State program changes; negotiating a change of office location to better suit elder and disabled clients; we, and the full board of trustees of the Village of North Syracuse acknowledge his dedicated service and leadership, hereby congratulate Philip J. Aylward on his retirement on September 13th, 2019.

He continued Church St. / Chestnut St. just so you know Trustee Strong when he became Mayor he went to the county to find out about getting Church St. / Chestnut St. done thinking it was a county road. He stated Gary Wilmer has stated it used to be a county road, so he went down to the county and they stated oh no, it is a Village Road, so it is on you. He continued we were fortunate to get a grant awarded to us his second or third year as Mayor, we signed the agreement in 2017, the state takes their time. He went on fortunately Gary Wilmer checked with OCWA to find out if they were going to be putting a water main or doing any water main work on Church St./ Chestnut St., before we do our work, it turns out they were. He stated it turns out the delay has actually beneficial because if we had sped ahead like he wanted to, we would have had all the roads done and finished. The Mayor continued but then OCWA would have come and said we are going to put in a 6” and 8” water main down. Trustee Strong stated, so we are all putting up with falucia, it has been like that for many years. The Mayor stated it takes time, he has been on OCWA’s case, and they still do not have a test for these last 4 or 5 houses, because of some condition that they cannot identify. He continued he has the cell phone number and he is in communication with the owner, the contractor that is doing the work. He stated the contractor stated cannot do the work until OCWA gets the test approved, so that is still not done. He went on to say they are working down at Chestnut St. as you know, they are closing the road and we talked about that before, because there is enough side road that people can navigate. He commented is Church St. a mess, it is, he has asked our DPW Sup’t to use some hot mix to patch the potholes that still exist, even after they repaved what they have dug up and that is the responsibility of OCWA to put back in a similar condition what they dug up. He stated their paving is almost better than what we had, so after 2 yrs. we still do not have drawings that we can bid. He continued there is one complication which we are working on, hopefully we have solved, he has asked for progress reports from our engineers, the plans are done and they went into the state for final approval so that we can bid the project. The Mayor continued he was not talking to just you, but to everybody. He stated they uncovered the second house over here next to our park, when Centerville Place and Chestnut St. when this whole extension was done, something never got reported, so a part of Church
St. according to them and according to the county's records is on private property. He stated we are working diligently to correct that, our Codes Dept., Atty., have gotten information to the engineering firm; were talking to the DOT, because they will not even allow us to bid the project until this accomplished. He continued he thinks that we have sufficient information, we can talk, but he thinks that we are going to get this resolved fairly quickly, so it can go out to bid. Atty. Chatfield stated it depends. The Mayor stated if it is abandoned property, we put his suggestion to the engineers; allow us to bid it and we can solve the problem between now and spring. Atty. Chatfield continued there is no question that it will get resolved. He went on he is still not 100% certain and he has talked to our engineer briefly a few minutes ago and we are going to talk to their contractor afterward. He explained he was told just on a particular parcel which apparently he thinks that is the one we are involved with, it used to be 205 Church maybe. The Mayor stated we can talk after but it could be there is not reputed owner to this slice that they are talking about. Atty. Chatfield stated he needs to figures exactly what piece of ground we are talking about, so he can do the research; he has fully researched 203 and the know the answers when it happened, but he does not know what parcel we are talking about, so once he knows we can get to the bottom of it. The Mayor continued that is the progress of Church St. / Chestnut St.; he added has he been getting complaints, yes he has. He stated when we went out today to pave with hot mix so it does not break up after a week unfortunately we had our crew out there and it interfered with the bus pick up, so he got an angry call from a resident asking if you do not know when the buses run; why cannot you get your act together, he has had several other complaints, but he is taking them and he has also had people say good you know. He stated next year we are going to have a nice new road, and we will, we just got to be patient.

He stated the Taste of North Syracuse we are getting a lot of feedback on the social media, there are over 200 likes according to Mrs. Butterfield. He continued this is our first go about and he thinks it is going to be successful, the event and people that are signed on are doing a good job and this is our first year, so we will see what happens. He stated and it is Fire Safety Day and it was started way back when we talked about it, can we do it in conjunction with Fire Safety Day. He continued we are trying to get Village Residents involved and if he can get them to walk to the restaurants and businesses, it would be better yet.

He went on to say for those of you who know the Bus Garage up in Cicero was turned down, so we will not be getting more traffic down thru South Bay Rd.

He stated there is the 2019 CNY Veterans Parade at the EXPO Center on November 9th at Noon at the Fairgrounds.

He continued the Onon. County Municipal Surplus Auction on Saturday, Oct. 26th at 9 AM, at the NYS Fairgrounds.
He stated there is an Honor Flight coming back from Washington on Saturday, Sept. 28th at 6:15 PM for those that are interested to meet them as they come back the airport.

He stated our phone system, and all our new communications is in place and we are working on Cyber Security improvements; there are some issues which we are dealing with, trying to get better passwords, etc. Village Clerk-Treasurer Kufel stated we are working with Peter and she actually did take a class on that too, so there are some mechanisms that we can definitely improve on and yes, we are working on that with Peter.

The Mayor stated that he will agree maybe it is a good idea to do a 6:30 PM time only for Public Hearings. He continued he knows we went for a long time without any Public Hearings and we were trying to fit them in, 4:30 PM meetings used to be really quick and they do not seem to be anymore regardless.

Atty. Chatfield stated he thought of some additional things he wanted to advise the Board about. He continued first, for those of you who are interested there is a training session up in Tug Hill on Monday, October 28th starting at 6:30 PM. He stated it is going to be Powers and Duties of Planning Boards, and basically procedures associated with it. He continued he heard on the radio on his way in that Lockheed Martin just received a 4 Billion Dollar contract and it is going to be performed at the Liverpool facility were talking about some real good economic news for the area. He stated lastly in the spirit this Taste of North Syracuse is not just food, but it is also services, and goods. The Mayor added Parks Director Roth’s birthday was yesterday, his wife’s is today and Village Clerk-Treasurer Kufel’s birthday is tomorrow.

Trustee St. Germain made a motion to adjourn at 5:34 PM. The motion was seconded by Trustee Strong. The motion was approved with Trustee St. Germain, and Trustee Strong, all voting in favor of the same.

Respectfully submitted,

Dianne M. Kufel
Village Clerk
VILLAGE OF NORTH SYRACUSE

REGULAR BOARD MEETING

DATE: Sept. 26, 2019
