New York State Public Health Law requires that all puppies and kittens get their first rabies shot at three months of age. They also need to get a booster shot at one year old and then again every three years. Ferrets must get a shot every year.

Please keep your pets on a leash or in a carrier and keep them close to you. Bring your pet's past shot records.

All shots are free for Onondaga County residents.  
A voluntary donation per family is appreciated.

**For more information call  
Animal Disease Control  
435-3165**
