Re: 110 East Taft Rd

To: Planning Commission Members,

I have reviewed the plans submitted for the above listed project and my findings are as follows:

Looks good; no concerns for DPW.

Drainage Water Sewer Sidewalks Snow Removal

Right-of-way Streets/Roads Safety Trash Removal

Concerns: Addaed Volume to the drainage system and sewer line.

Is there adquit area for snow storage and who will be clearing the sidewalks?

Items I would like the Planning Commission to address:

Drainage Water Sewer Sidewalks Snow Removal

Right-of-way Streets/Roads Safety Trash Removal

Recommendations:

Based on factors that would affect DPW or its Operations, I recommend the following:

Project does not have any negative impact on DPW or its operations

They make items noted a part of the conditions for approval

Project impacts items checked and plan needs to be modified

Sincerely,

Ed Ware
Superintendent of Public Works
